APPLICANT : MATSUSHITA ELECTRIC IND CO LTD;

INVENTOR : KUWAMOTO MAKOTO;

INT.CL. : G11B 33/08 G11B 33/02

TITLE : DEVICE PROVIDED WITH VIBRATION  
PROOFING SUPPORTING  
MECHANISM

**ABSTRACT :** PROBLEM TO BE SOLVED: To provide the device having a small sized vibration proofing supporting mechanism furnished with impact resistance as well as vibration resistance.

SOLUTION: A storage device 5 is fixed to a casing and incorporated therein. The casing is incorporated in a protecting box 4 thus be protected. A supporting member 1 is arranged between the casing and the protecting box 4 for supporting the casing. The protecting box 4 is supported by the supporting mechanism 2 inside the device having the vibration proofing supporting mechanism. In such a device having the vibration proofing supporting mechanism, the vibration attenuation characteristic of the supporting member 1 is different from that of the supporting mechanism 2.
